Safety Data Sheet (SDS)

Hazard(s) Identification:

No classification is assigned, based on classification criteria. Review the entire data sheet for any additional information which did not result in a classification.

First-Aid Measures:

Inhalation - If adverse effects occur, remove to uncontaminated area. Get medical attention.

Skin Contact - Mechanical irritation may occur. Wash with plenty of soap and water.

Eye Contact - Mechanical irritation may occur. IMMEDIATELY wash eyes with running water to remove solid and semisolid material. Get medical attention.

Ingestion - None during normal use. If swallowed, get medical attention.

Most Important Symptoms/Effects Acute - No information on significant adverse effects. Delayed - No information available for the product.

Fire-Fighting Measures

Suitable Extinguishing Media - Use carbon dioxide, regular dry chemical, regular foam or water.

Unsuitable Extinguishing Media - None known.

Special Hazards Arising from the Chemical - Hazardous Combustion Products Combustion: carbon compounds, nitrogen compounds, hydrogen cyanide.

Fire Fighting Measures - Avoid inhalation of material or combustion by-products. Move material from fire area if it can be done without risk. Use extinguishing agents appropriate for surrounding fire. Stay upwind. In the molten form: Cool affected area as quickly as possible by drenching or immersing in water until material solidifies.

Special Protective Equipment and Precautions for Firefighters - Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

Conditions for Safe Storage, including any incompatibilities - Store in a dry place. Store at room temperature. Keep away from Sunlight if applicable. Store and handle in accordance with all current regulations and standards. Keep away from incompatible materials. Incompatible materials include strong acids and strong oxidizing materials.

Incompatibilities - Strong acids, strong oxidizing materials.

Disposal: Licenced Landfill and/or recycling centre.

INFORMATION ON LIKELY ROUTES OF EXPOSURE

Inhalation: This product cannot be inhaled unless it is subjected to an activity such as sawing, drilling, grinding, welding, buffing, etc. that generates dust or fumes.

Ingestion: is not a likely route of exposure unless it is subjected to an activity such as sawing, drilling, grinding, welding, buffing, etc. that generates dust or fumes

Skin Contact: Exposure to dust generated during grinding or machining may cause respiratory tract infection, skin irritation, and eye irritation.

Eye Contact: Grinding or machining may create dust. Immediate Effects/Delayed Effects. Medical Conditions Aggravated by Exposure.

All information recommendations and suggestions appearing herein concerning this product are based upon data obtained from recognized technical sources. It is the user's responsibility to determine the Safety, Toxicity and suitability of his/her own use, handling and disposal request. Since actual use by others is beyond our control, no warranty, expresses or implied, is made.
